

RENEWABLE FUTURE
PTY LTD

Glazed Power Canopy
Attractive, Cost effective, Secure

POWER  **WEATHERPROOFING**  **SHADE**

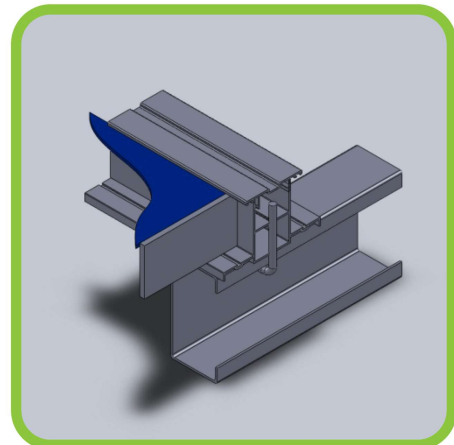

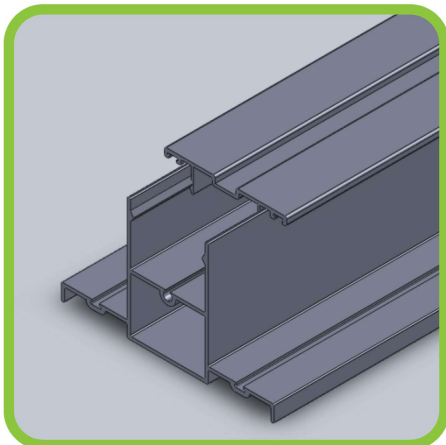

Carport Module Mount - Three benefits in one

Cost Effective: The mount structure allows for a glazed surface with out the need for roof sheeting.

Attractive: High tech aesthetic with no visible gaps between modules.

Power production: Modules generate power for vehicle charging or supplementation of facility power.

Secure: The mount structure clamps the module along its entire length. Modules cannot be easily stolen without damage .

Weather protection: Glazed canopy provides shelter from rain.

Shade: Structure provides good shade and protection for vehicles .

*Purlins for module bearers at no more than 1500mm between centres

RENEWABLE FUTURE specialises in the supply & installation of Electric Vehicle (EV) Charging stations throughout Sub-Saharan Africa.
